One family, one passion, one story for over 60 years

The history of **Marmi Vrech** blends and mixes with that of the Vrech family, and with a passion that took **shape in 1961**.

In fact, it is in 1961 that the hard work and dedication of **Giocondo Vrech** gave life to a company specialized in working marble and natural stone. A small family-run business not that different from craft workshops, which soon became a leader in the realization of elegant interior furnishings.

In 2008, Marmi Vrech underwent an important generational change, passing from the founder to his sons **Alessandro and Riccardo Vrech**. As of today, Marmi Vrech is a structured company, which has expanded in new fields, combining fine craftsmanship with state-of-the-art technology and keeping working marble and other natural stones with dedication and passion.
