— TREATMENTS

“

Marble makes you dream,
marble excites,
marble amazes.
Take care of what you love.

”

Available treatments

In addition to the design and production of interior design in marble, Marmi Vrech offers its know-how and its decades of expertise to take care of marble surfaces with the following treatments:

Water repellent

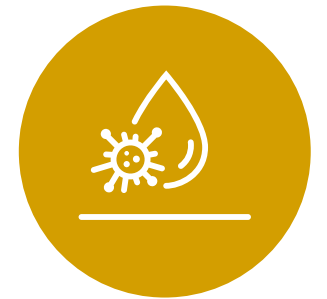

Hydro-oil repellent

Antacid

Protective and anti-humidity

Antibacterial

Water repellent treatment

This treatment does not alter the color or the finishes of the marble. It is versatile and can be used on various surfaces such as marble, granite, agglomerates, exposed bricks, tuffaceous stones and exposed concrete.

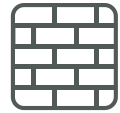

Application:

Outdoor

Flooring

Cladding

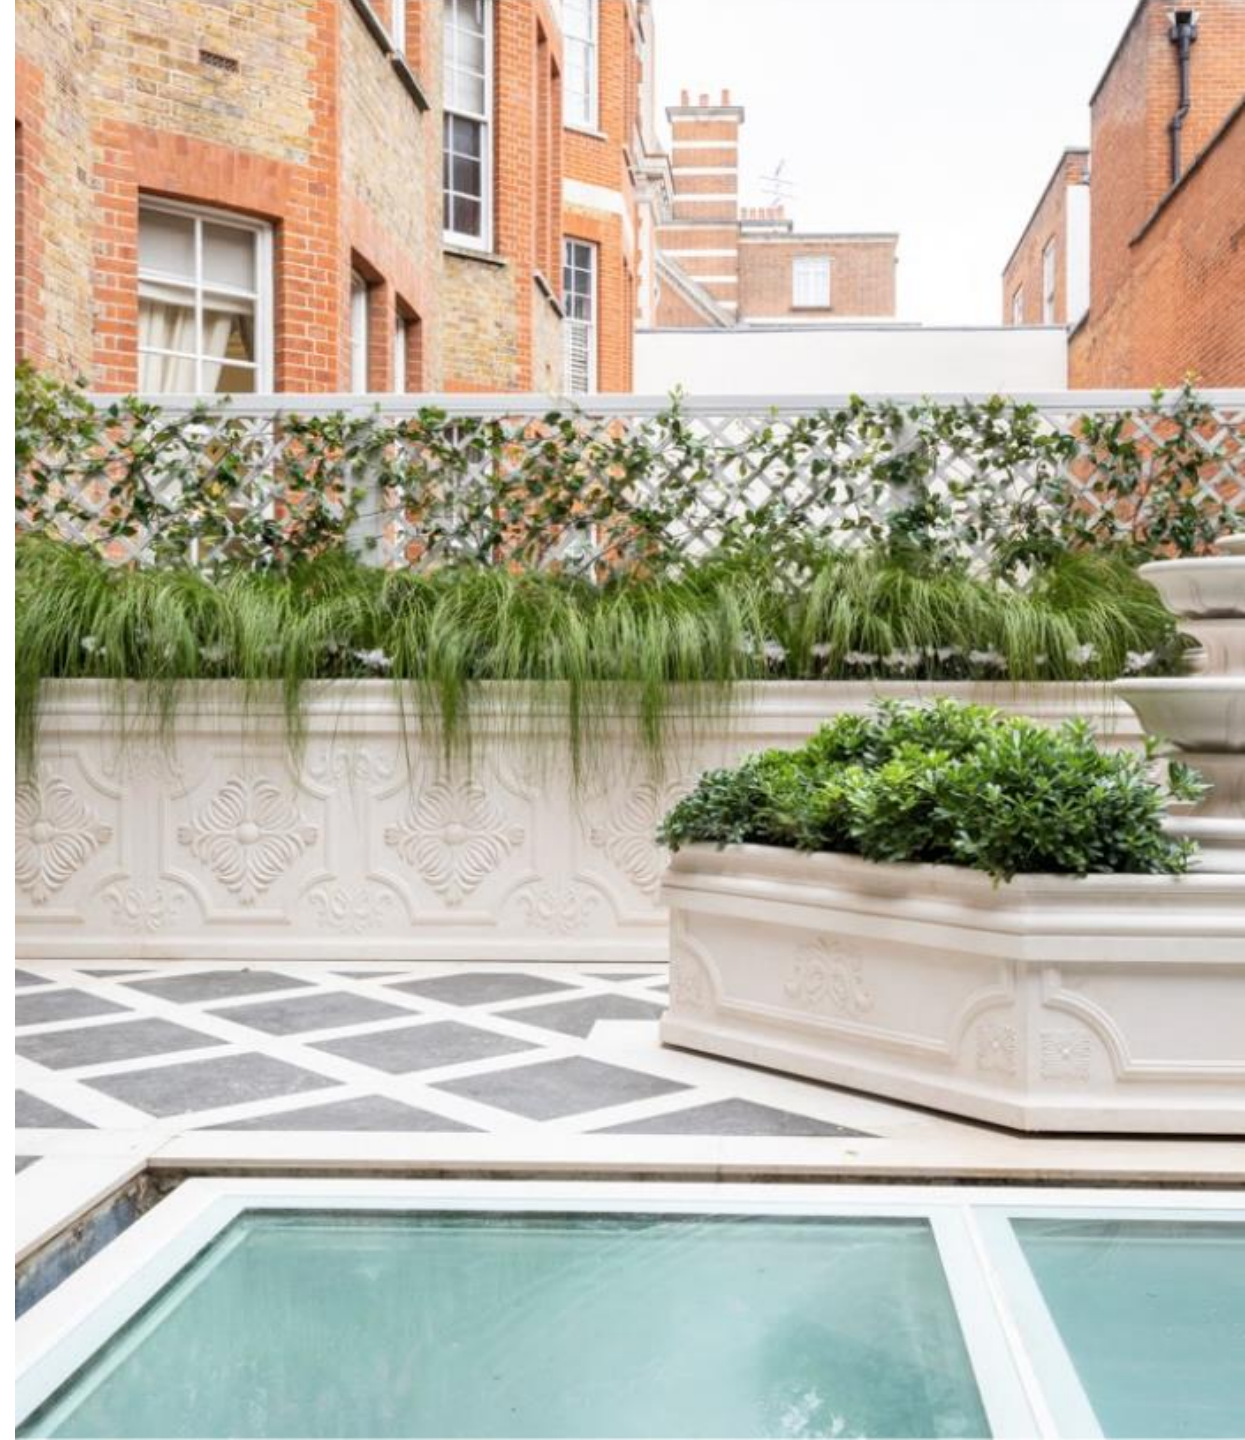

Protection from:

Water

Easy to clean

Hydro-oil repellent Treatment

Choose this treatment to preserve surfaces from stains or corrosive substances that can ruin the materials. The hydro-oil repellent treatment preserves the beauty of your marble.

Application:

Outdoor

Indoor

Flooring

Cladding

Protection from

Water

Oil/Greasy

Coffee

Easy to clean

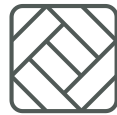

Antibacterial treatment

At the base of the treatment there is nanotechnology with antibacterial action with silver ions. Even the most delicate surfaces are protected and sanitized. Materials and finishings remain intact.

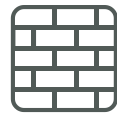

Application:

Indoor

Flooring

Cladding

Protection from:

Water

Fungi / Bacteria
/ Molds

Easy to clean

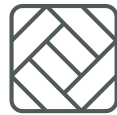

Protective and anti-humidity treatment

Marble, granite and agglomerates are safe and do not fear mold, thanks to the protective and anti-humidity treatment. This innovative process stops moisture and prevents stains and halos caused by laying products.

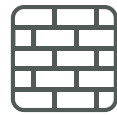

Application:

Indoor

Flooring

Cladding

Protection from:

Water

Oil/Greasy

Easy to clean

Antiacid treatment

Acidic substances, foods, and corrosive elements do not penetrate the surfaces thanks to this treatment, which is effective on polished surfaces as well as on honed ones.

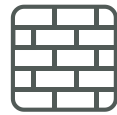

Application:

Indoor

Flooring

Cladding

Protection from:

Water

Oil/Greasy

Lemon

Beverages

Wine

Profumo

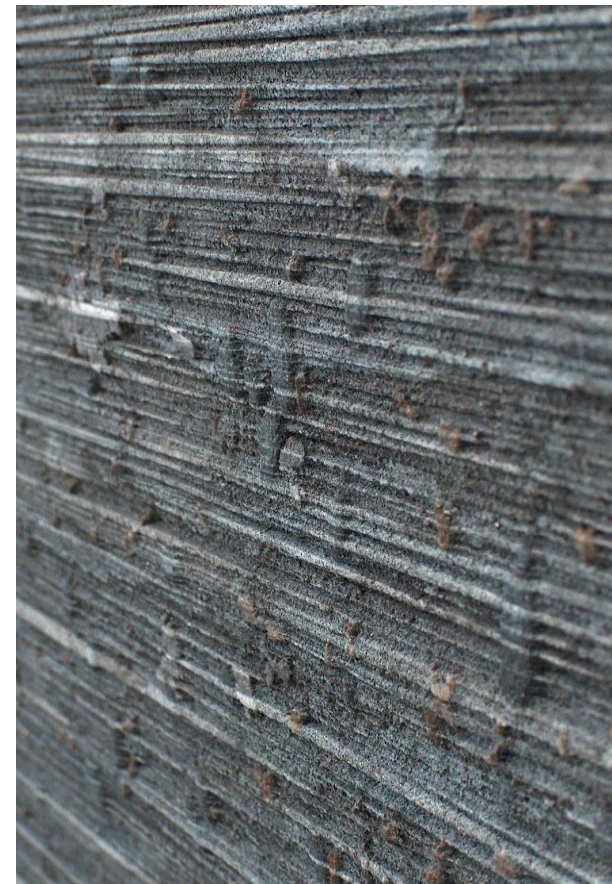

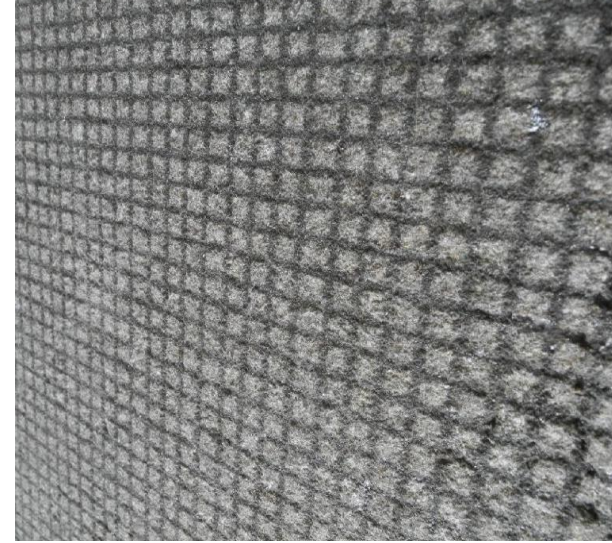

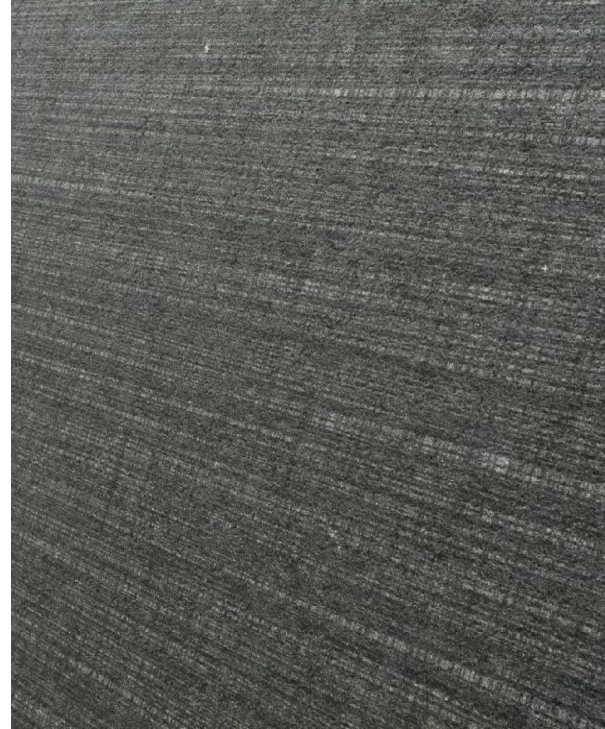

Easy to clean

Special treatments

We also carry out the following special treatments:

- stain removal treatments;
- anti-scratch treatments;
- anti-moss treatments;
- anti-slip treatments;
- matting / antiquing treatments;
- revitalizing or wet effect treatments.

Design. Preserve. Admire.
