## René

Nuovi elementi curvi arricchiscono l'ampio e iconico progetto di imbottiti René. Inediti moduli che consentono di creare varianti visivamente più fluide e morbide, tanto contenute quanto estese, per un divano che nasce componibile e che ora è in grado di muoversi sinuosamente tra design e scultura bifacciale. Rispettando l'essenza più intima della collezione e i suoi distintivi volumi pieni, questi moduli permettono di potenziare la libertà creativa e compositiva di René.

New curved elements enrich the iconic and expansive René upholstered collection. These new modules allow for visually softer, more fluid compositions, both compact and expansive, for a sofa that was born modular and can now move sinuously between design and double-sided sculpture. True to the collection's most intimate essence and its distinctive full volumes, these modules further enhance René's creative and compositional freedom.

## René Suite

René Suite rappresenta lo sviluppo da centro stanza del divano René. Il termine suite porta con sé il significato di sequenza di elementi che si susseguono e si organizzano in un sistema coerente. Con sedute liberamente componibili e grande flessibilità progettuale, il modello riprende il linguaggio formale dell'ormai inconfondibile collezione, introducendo diverse profondità, livelli di comfort e nuovi elementi sagomati. Il poter integrare vassoi in ceramica e le ampie possibilità di personalizzazione rendono ogni René Suite unico, per interpretare con disinvoltura spazi e ambienti contemporanei di qualsiasi dimensione.

René Suite represents the centre-room evolution of the René sofa. The term suite conveys the idea of a sequence of elements that follow one another and are organised into a coherent system. With freely configurable seating and great design flexibility, the model revisits the formal language of the now unmistakable collection, introducing different depths, levels of comfort and new shaped elements. The structure integrates ceramic trays, and the extensive possibilities for customisation make each René Suite configuration unique, allowing the series to interpret contemporary spaces and settings of any size.

## Roger

La poltrona Roger nasce per completare l'omonima collezione di divani, declinando lo stesso linguaggio estetico, pulito e sartoriale. Il design caratterizzato da una superficie continua dà vita a una struttura rassicurante, che invita a essere osservata da ogni lato. La semplicità formale diventa espressione di equilibrio: linee essenziali e lievemente arrotondate disegnano una seduta accogliente e dalle forme generose, capace di offrire un comfort pieno e avvolgente.

The Roger armchair is designed to complete the collection of sofas of the same name, expressing the same clean, tailored aesthetic language. Its design, defined by a continuous surface, creates a reassuring structure that invites it to be viewed from every angle. Formal simplicity becomes an expression of balance: essential, gently rounded lines shape a welcoming seat with generous forms, capable of offering full, enveloping comfort.

# Frank

Per chi cerca un tavolo di grande impatto visivo, la collezione di tavoli Frank accoglie una nuova evoluzione: il tavolo Frank interamente in marmo. Questa nuova versione è rivelazione della materia che definisce la struttura. Il piano, sottile nell'estetica ma robusto nella consistenza, si fonde con gambe longilinee e smussate, enfatizzando solidità e precisione costruttiva. Il segno distintivo della giunzione a vista tra piano e struttura è ora ancor più valorizzato dal fascino scultoreo della pietra naturale.

For those seeking a table with strong visual impact, the Frank collection welcomes a new evolution: the Frank table crafted entirely in marble. This new version highlights the material that defines the structure. The top, thin in appearance yet robust in substance, merges seamlessly with slender legs, emphasizing solidity and precision in construction. The signature joint between top and base is now further enhanced by the sculptural appeal of the natural stone.

## Omar

La geometria di Omar non nasce da un gesto formale ma dall'orientamento dell'uso: il comodino si orienta verso chi è a letto, rendendo aperture e ripiani naturalmente accessibili dalla posizione sdraiata. Da questa intuizione, nasce la sua forma triangolare pensata per facilitare il gesto quotidiano di raggiungere e riporre gli oggetti. La sua struttura monomaterica ospita vani integrati - a vista oppure celati da un'anta -, creando un gioco di pieni e vuoti. L'opzione del top in marmo diventa elemento strutturale, conferendo al comodino un tocco ricercato.

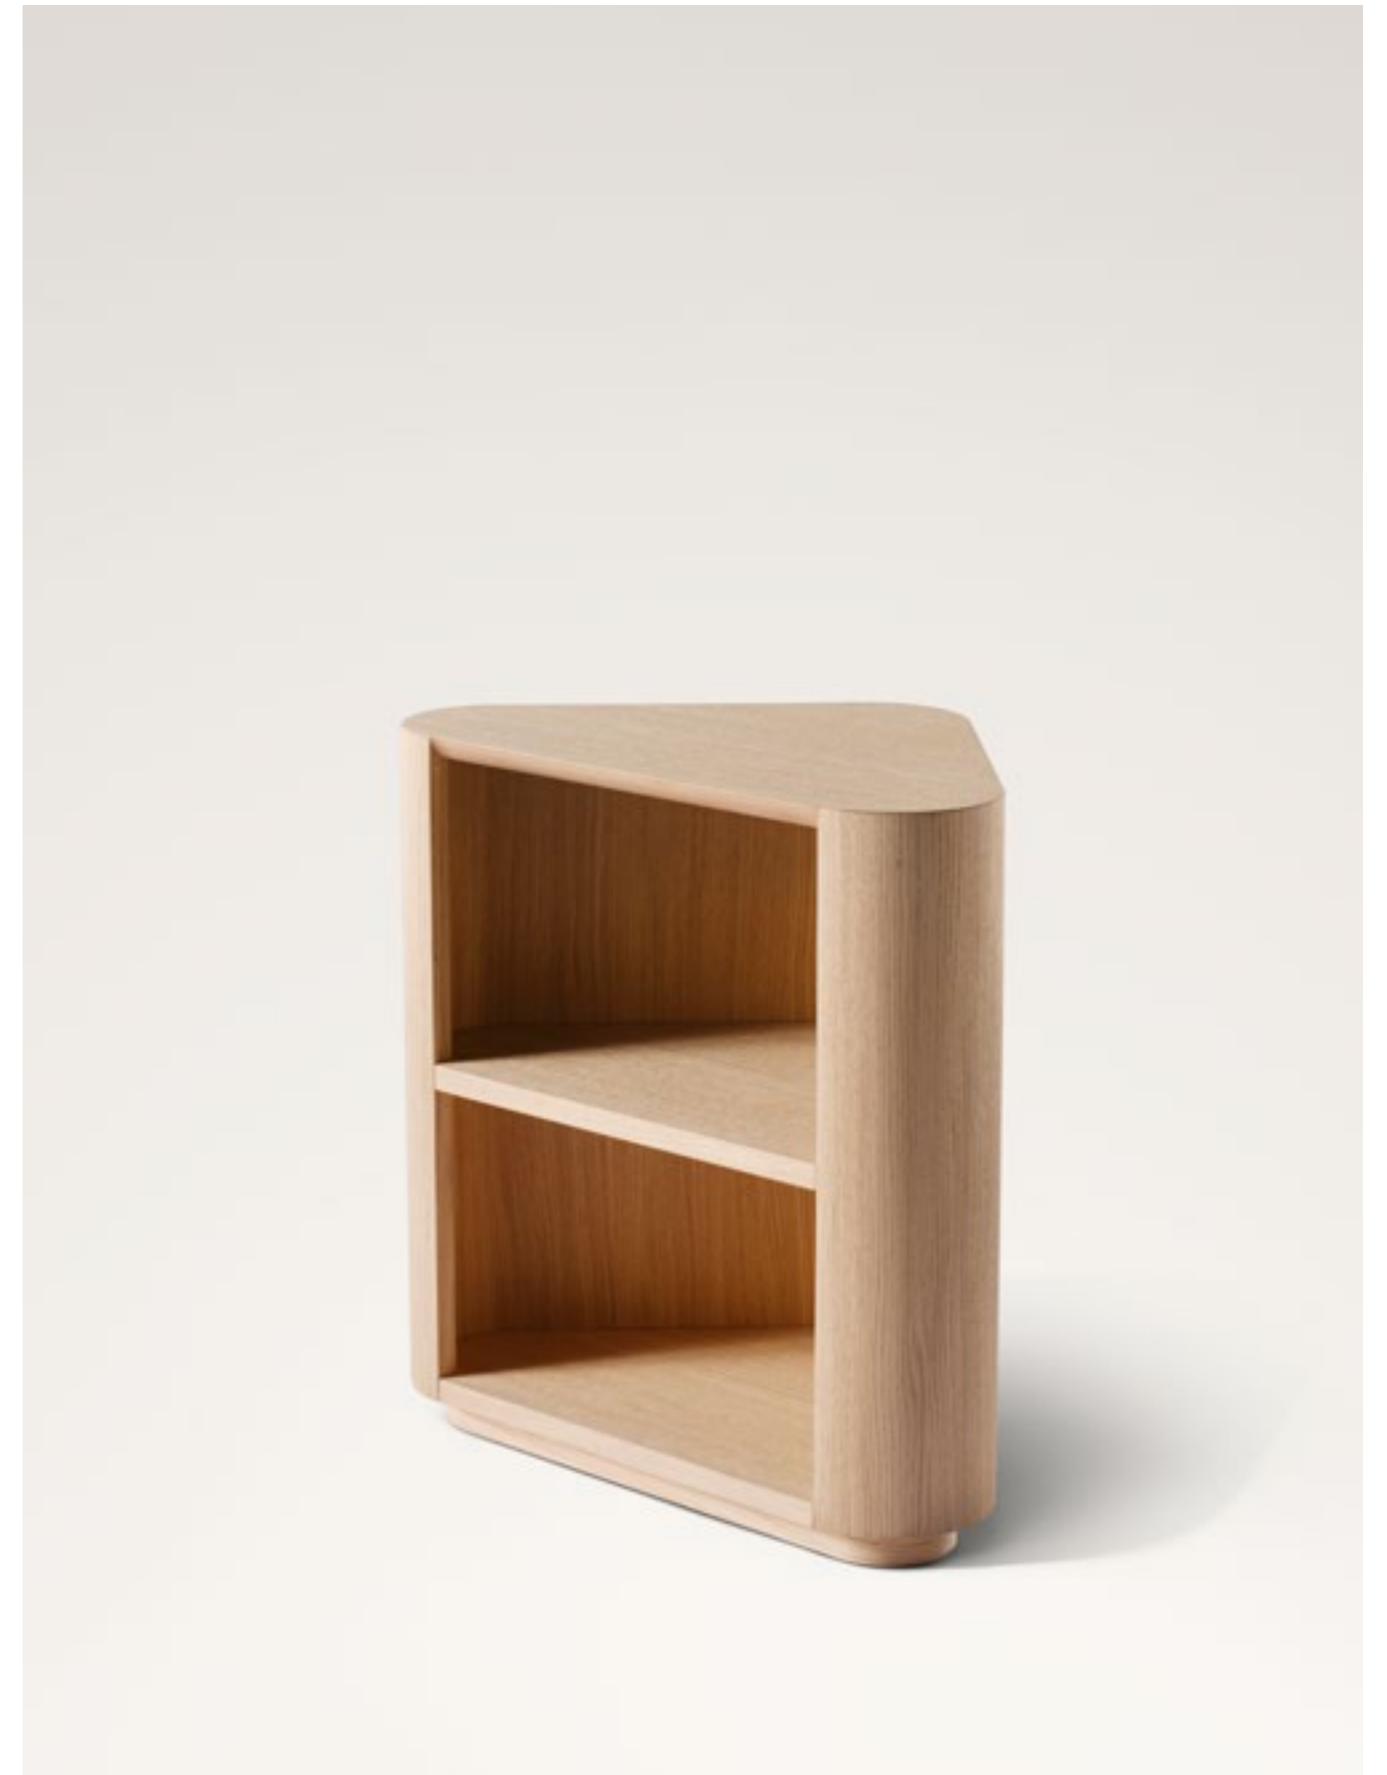

Omar's geometry does not originate from a formal gesture but from the orientation of use: the bedside table turns towards the person lying in bed, making openings and shelves naturally accessible from a reclining position. From this intuition comes its triangular shape, designed to facilitate the everyday gesture of reaching for and storing objects. Its single-material structure accommodates integrated compartments - either open or concealed by a door - creating a play of solids and voids. The option of a marble top becomes a structural element, giving the bedside table a refined touch.

## Plinto Limited edition

Per celebrare il 30° anniversario di Meridiani, l'iconica collezione Plinto, nata nel 2015, accoglie una limited edition di 30 tavoli in marmo Cipollino - tributo alla pura materia e alla maestria artigianale che da sempre identificano Meridiani. Grazie alle spontanee striature dal bianco al verde, ognuno dei 30 pezzi è unico e irripetibile, presentando un certificato di autenticità numerato a garanzia dell'esclusività del prodotto. Una serie speciale, per un tavolo ricercato e scultoreo, rigoroso e di elevata fattura.

To celebrate Meridiani's 30th anniversary, the iconic Plinto collection, launched in 2015, welcomes a limited edition of 30 tables in Cipollino marble - a tribute to pure material and the artisanal craftsmanship that have always defined Meridiani. Thanks to the natural veining, ranging from white to green, each of the 30 pieces is unique and one of a kind, and comes with a numbered certificate of authenticity guaranteeing the exclusivity of the product. A special series for a refined, sculptural table, rigorous in design and of exceptional quality.

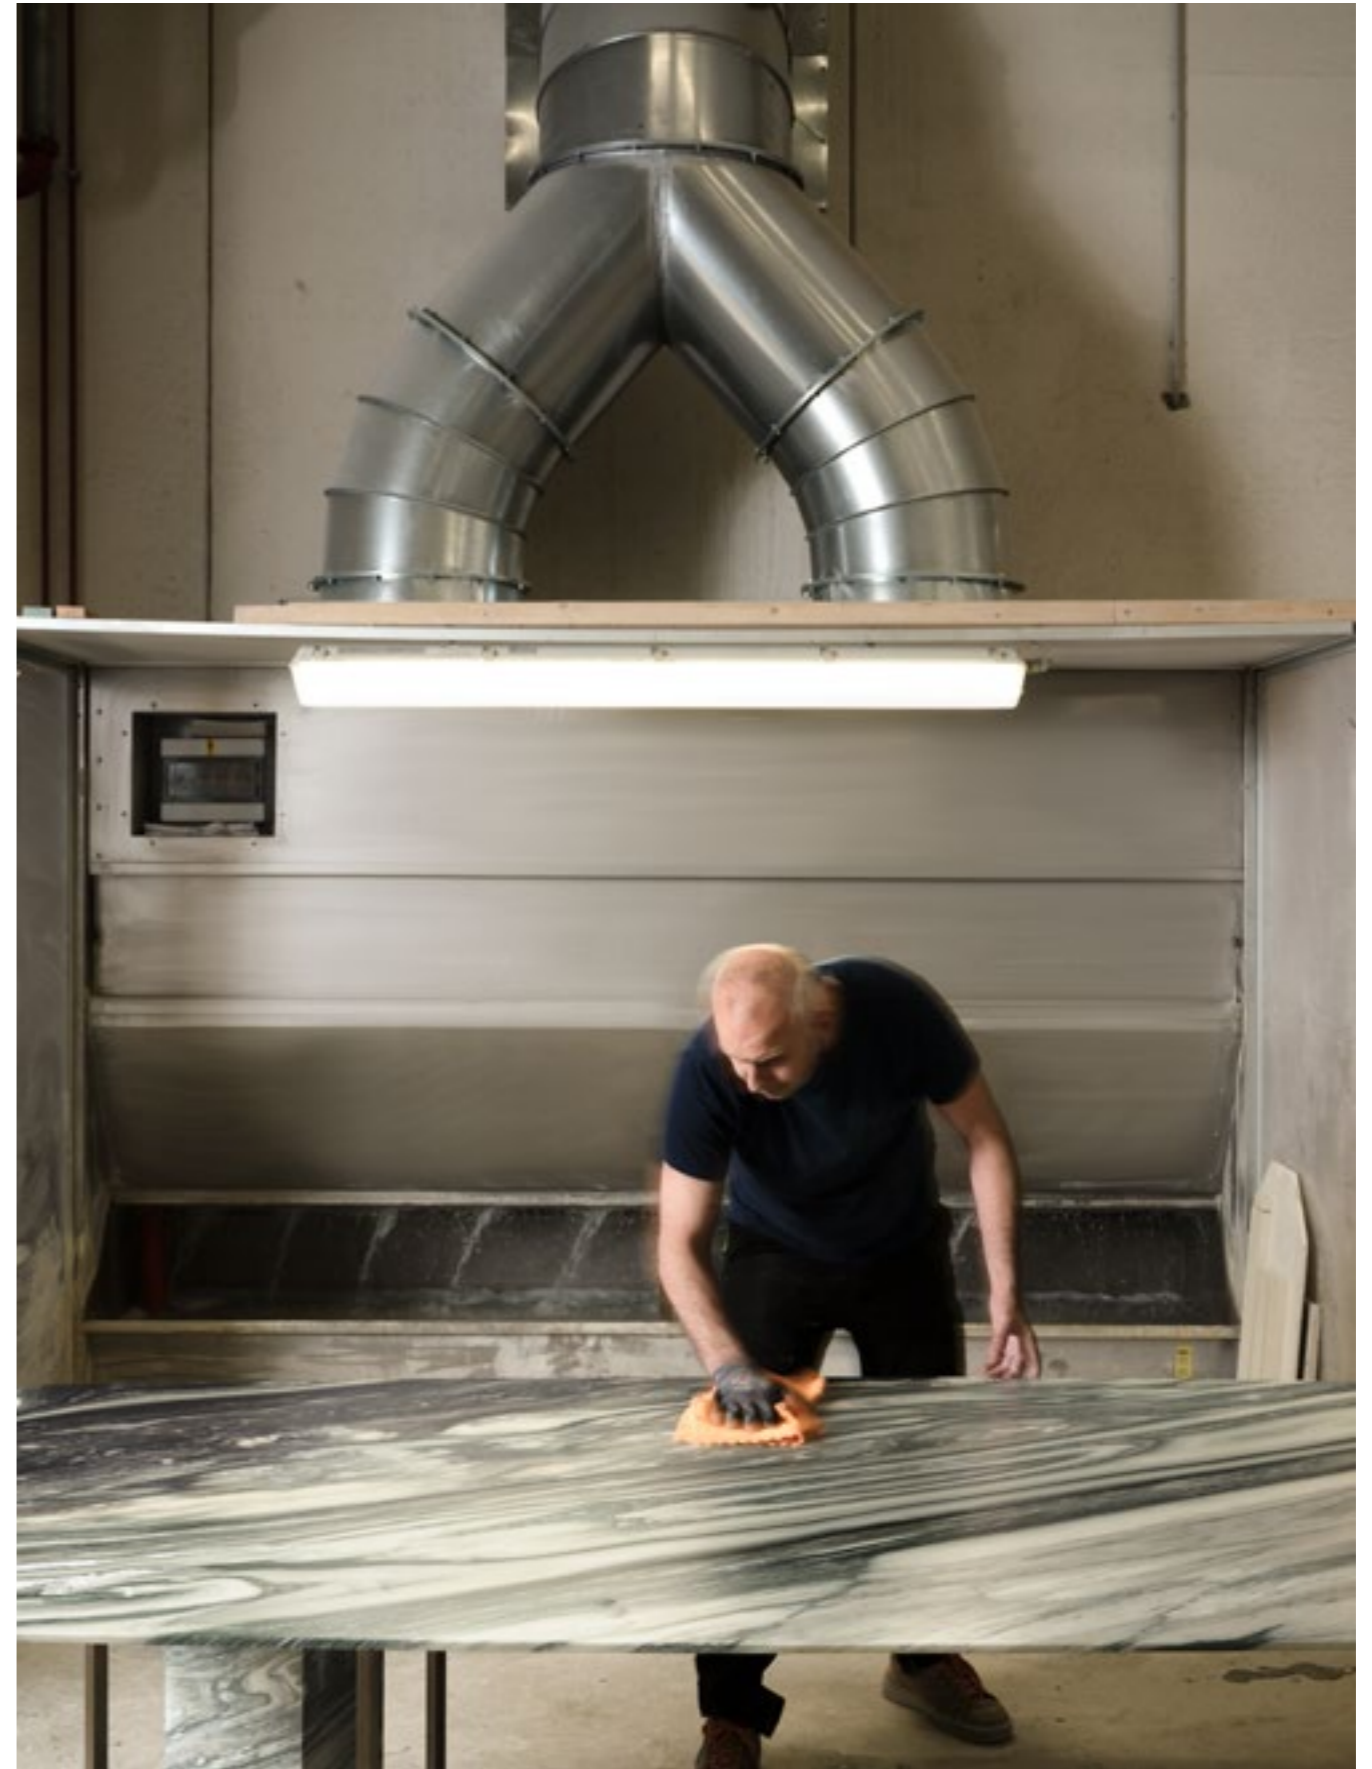

## Plinto limited edition

La struttura monumentale dello storico tavolo Plinto di Meridiani, ispirata all'originario riferimento al plinthus - elemento architettonico che ne ha definito l'identità - trova un naturale sodalizio con la forza materica del marmo Cipollino. Il piano rettangolare, dagli angoli arrotondati, si accorda con una base monolitica composta da gambe in marmo e da una struttura in metallo leggera e ariosa, in un equilibrio calibrato tra solidità e leggerezza visiva. Selezionato per questa serie esclusiva, il marmo Cipollino si distingue per il disegno dinamico delle sue venature, che si sviluppano in movimenti sinuosi e irregolari, evocando trame naturali sempre diverse, ricordano le striature concentriche di una cipolla. Le sfumature cromatiche attraversano una palette articolata, dal bianco al verde intenso, passando per toni grigi e accenti azzurrini, contribuendo a rendere ogni superficie unica e irripetibile. La sua origine, legata a lunghi e complessi processi geologici, si riflette in una materia compatta e resistente, capace di mantenere nel tempo la propria integrità e qualità estetica.

The monumental structure of Meridiani's historic Plinto table, inspired by the original reference to the plinth - the architectural element that shaped its identity - finds a natural harmony with the strong material presence of Cipollino marble. The rectangular top, with rounded corners, is paired with a monolithic base made of marble legs and a lightweight, airy metal structure, achieving a careful balance between solidity and visual lightness. Selected for this exclusive series, Cipollino marble stands out for the dynamic pattern of its veins, flowing in sinuous, irregular movements that evoke ever-changing natural textures - reminiscent of the concentric layers of an onion (in Italian: cipolla). The color variations span a rich palette, from white to deep green, with grey tones and hints of blue, making each surface unique and unrepeatable. Its origin, shaped by long and complex geological processes, is reflected in a compact and durable material, capable of preserving its integrity and aesthetic quality over time.
